

ATTENTION: OWNERS & GUESTS AT PUAMANA

The Puamana Homeowners Association has just enhanced the Wi-Fi access at the Clubhouse and surrounding area.

The new service provides a stronger signal for better connection to our existing line.

Access is on a paid basis, with the most competitive rates in Maui. Simply follow the on-screen instructions and create your own account.

WELCOME TO PUAMANA WI-FI

NOTE: CREDIT CARD CHARGES ARE NON-REFUNDABLE THROUGH PAYPAL. ALL DISPUTES MUST BE DIRECTED TO YOUR CREDIT CARD COMPANY!

To access the system, follow these simple directions:

1. Coverage area is in the clubhouse and surrounding areas.
2. Connect to the Puamana Office or Puamana Clubhouse Access points (Antennas).
3. Once connected, click on Internet Explorer or equivalent.
4. You will be redirected to the Puamana Welcome Page.
5. Follow the on-screen directions and set up your own account.
6. **IMPORTANT** - Remember to click on *Return to Merchant* on the last payment confirmation page (if you do not PayPal will not remember your password)
7. The subscription period and rate is as follows (**Credit Card Only**):

<u>Subscription Period</u>	<u>Rate</u>
One hour	\$ 4.95
One day	\$ 9.95
One week	\$39.95
One month	\$74.95
Three months	\$ 99.95
Six Months	\$149.95
Twelve Months	\$199.95

8. You will be redirected to msn.com

Instruction for accessing the Puamana WIFI System.

For ease of use we have divided our instruction by type of Operating System.

VISTA

After the PC is on, left click on the network icon in the bottom right of the task bar. The choices will be Connect to a Network or Network and Sharing Center. If the first time, please click on the Connect to a Network line and select the proper antenna. Puamana WIFI antennas are listed below. Select the one with the strongest signal and connect.

Once connected, you should then open you browser (Internet Explorer). If you have a custom home page or one out of the country, please use google.com in the address bar. This should speed up the access to the Puamana Sands WIFI Page. Select your user type and follow the on screen instructions.

When complete, you will get a summary page. On it is "RETURN to MERCHANT". Click on it to set the server with your selected name and codes. Failure to click this button will limit you future connections.

Windows XP

Once the computer is on, right click the wireless icon in the bottom right of the task bar. Select 'View available Wireless Networks' and select the one with the strongest system. A list of our access points is below.

Once it says connected, and it will say connected, please close the screen and open Internet Explorer. As above, if you have a custom home page or one out of the country, please use google.com to start with. Once to the Welcome to Puamana WIFI system screen, select the type of user and follow the directions.

Apple

Left click on the airport icon at the top. Select the access point from the list and check it. Open Safari and use google.com to effect a transfer to the WIFI screen. Select the type of user and proceed.

Note: Our experience has shown that Apples need to be close to the doors and windows for the best connections. If you do not get a connection, please verify the IP address before calling.

Other antennas may be private and not on our system. Connect at your own risk.
